Student Health and Well-Being

Faculty Senate
September 10, 2014
Objective within Educational Excellence:

“Promote the health and well-being of students (undergraduate, graduate, and professional) as a foundation for academic and life success.”
For many years, Cornell has utilized a comprehensive public health approach to deal with the prevention of and response to various health and safety threats impacting our community.
Cornell University

Comprehensive Health Framework

- Foster a healthy educational environment
- Promote life skills and resilience
- Increase help-seeking behavior
- Identify people in need of care
- Provide integrated mental health and medical care
- Deliver coordinated crisis management
- Reduce risks in the physical environment

Mental Health Data
PULSE 2013 (n = 6,190)

In the past 12 months, 38% of Cornell undergraduates were unable to function academically (e.g., missing classes, unable to study or complete homework) for at least one week due to depression, anxiety, or stress.
Mental Health Strategies

- Notice and Respond & Friend2Friend
  - More than half of all faculty have participated
- Resilience building
  - Staying Balanced program with Engineering 1050
  - School of Hotel Administration session for first-year students
- Integrated Medical & Mental Health
  - Depression screening
  - Design of new facility
By ASHLEY CHU

With an increase in high-risk drinking among students — particularly in off-campus locations such as Collegetown — University officials say they are concerned about student alcohol consumption during Orientation Week and the weeks that follow.
High-Risk Drinking
(5+ drinks for males, 4+ females)
Alcohol and Social Life Survey, Fall 2013

- First-year: 35%
- Sophomore: 45%
- Junior: 49%
- Senior: 53%
Percent of undergraduates experiencing harm from alcohol/drugs during past year
